New York, March 21.—The excessive duliness into which the dealings in stocks fell to-day was ascribed to a waiting attitude on the part of the large operative forces. Various factors were assigned as the ground for this attitude. The adjournment of the Supreme Court over the spring holiday disposed of one of these factors. Last week predictions were offered with a degree of particularity unusual even for Wall Street rumors that the Supreme Court decision in the American Tobacco case would be handed down to-day, and would be in favor of the company. The failure of verification of this rumor to-day seemed to throw the market into a state almost of suspended animation. Chesapeake and Ohlo's acquisition of Hocking Valley and the convertible bonds offered by Norfolk and Western are inspiring causes for the movements in these stocks. The railroad group as a whole had the benefit of very cheerful views of the railroad traffic situation.

The apprehension has been growing up that the money market may be duliness into which the dealings in

of the railroad traffic situation.

The apprehension has been growing up that the money market may be subjected to a squeeze in connection with the April 1 settlements. Requirements at that time are normally large, and there are special demands to be met at the coming settlement. In the New York market new hond issues conmet at the coming settlement. In the New York market new bond issues continue to appear and preparations for others are in hand, promising definite extension of the needs of the money marget. The rising rates for money were accompanied to-day by a sharp advance in foreign exchange in consonance with the hardening of discounts in the London market. The subscriptions to the New York City bond issue of \$55,000,000 in 4 1-2" per cents, were waited for with absorbing interest throughout the financial district.

The lack of refinite knowledge of the average price realized kept the stock market in suspense to the last. The large number of proposals announced before the bids were examined had a cheering effect and helped to bring about the firm tone maintained in the excessive duliness of the stock market.

CHICAGO GRAIN SIARREST.

Chicago, Ill., March 21.—Continued dry weather in the Southwestern wheat country here, a builtsh effect in the wheat pit, although more favorable crap reports, caused prices to sag from a strong openius. Selling pressure from long lines overcame an early rise, and the tone of the corn market was decidedly bearish throughout the session. Liquidation was the prevailing factor in the oats pit, and prices sloped flownward, while provisions had a wank tone all day, pork nearly holding its own, while lard and ribs sagged to a finish from 1697212c. off.
